

BARGAINING BULLETIN # 4 2/4/2010

Today the Union and the Company met with full committees for the fourth day of bargaining.

The Company offered two presentations on the combining of job titles. The Union asked many questions inquiring about justifications for these job title combinations.

The Union offered proposals to increase the size of the bargaining unit and modify the grievance procedure.

The committees bargained into the late afternoon then parted to prepare responses to the days proposals. The Union and the Company will resume bargaining Friday morning.
